Only the owner of that data has the authority to decrypt it according to the app developer team. Make sure that you use a strong password and save it somewhere safe. Because losing your password will mean losing your data. You will get 50GB of free cloud storage but there is a catch. The free storage will be subject to your participation in the MEGA achievements program. Other storage packages range from 1TB to 16TB on a monthly renewal basis. Prices range from 4.99 Euros a month to 30 Euros depending on your chosen package. And you can cancel any recurring subscription anytime before the renewal date. The app offers added security with two-step authentication. This means that even if someone has your password they would still require 5 digit backup code that only you will know. Mega also offers a built-in chat messenger in the cloud storage app. It also is encrypted but isn't very popular with the local population. But can be a great hit between an office team or a group of people who can chat and work together. The same can be said for its shared folder feature which enables teamwork by offering the ease of sharing files between team members. If you think the app suits your needs then download it now by clicking on the download button above. Let us know which feature captures your attention in the comments section below.
